

Everything You Always Wanted to Know about Corona Virus, Covid-19*

Here are the basics from a group of Board-Certified Medical Doctors with a nearly 100% track record of curing all of their Covid-19 patients, using treatments the CDC and Dr. Fauci don't approve of. Yet, they work. Most of the "CDC approved" treatments, don't.

VAERS data released Friday, Aug 19, by the Centers for Disease Control and Prevention show 1,390,594 reports of adverse events from all age groups following COVID-19 vaccines, including 30,479 deaths and 251,075 serious injuries between Dec. 14, 2020, and Aug. 19, 2022.

www.openvaers.com and the official site: www.vaers.hhs.gov thru August 19, 2022

This first video recorded in the middle of July 2020, had 17 million views in 17 hours, at which point You Tube deleted the original. What follows is a reposting to a different site:

Two Medical journals retracted their articles which stated that Hydroxychloroquine was bad. Both retracted their articles within a month:

www.tinyurl.com/covid-truth7 This is just one of those retractions.

Note that Hydroxychloroquine and just plain Chloroquine are essentially the same drug. Just like Bayer Aspirin and Bufferin are essentially the same. The link below shows you that in 2005, the National Institutes of Health declared that:

Chloroquine is a potent inhibitor of SARS coronavirus infection and spread of SARS Corona virus (which is one of the safest drugs today). Every Vietnam Veteran who served in country took Chloroquine to prevent Malaria, as did the guys in Korea. The same drug prevents and or cures Covid-19.

Below is an Illinois Review Article wherein a Medical Doctor states that Covid-19 Hoaxes abound:

www.tinyurl.com/covid-truth9 He also discusses the fake study about Hydroxychloroquine

Now we come to the question of masks. Do they work? Nope!

*But were afraid to ask!

Now we come to the question of, “Are the Doctors in link 06 above real doctors?” A Democrat from Arlington Heights told me they weren’t real Doctors. Watch this video and then decide:
